

About this document

This document contains the installation procedures for attendant consoles, telephones, and add-on modules. See [Figure 1](#) for apparatus designations.

“Wiring installation” on page 3 includes information about the wiring for all telephones and attendant consoles.

“Attendant consoles” on page 11 describes the installation and removal process for QCW-type and M1250/M2250 attendant consoles.

“Telephones” on page 39 provides procedures for installing and removing the SL-1, M1109, M2000, M2006/M2008, M2016S, M2216, M2616, and M3000 telephones.

“Add-on modules” on page 77 includes installation and removal information for all add-on modules and options for all telephones and attendant consoles.

Note: There are two distinct versions of Modular telephone sets—both are supported. The versions can be clearly distinguished by the first four letters in the model identification label on the bottom of the set. The two types are the “NTZK” models and the “NT2K” models. When appropriate, differences are noted in this document.
